OF THE SAILORS FATALLY WOUNDED .- Yesterday morning, between 11 and 12 o'clock, a difficulty oc curred on board the ship Mayflower, a: Thorne's Do.k, near the Felton Ferry, in which one of the seamen, named Charles Neibour, was stabbed with a mariinspike by Janes Kerwin, the third mate, and so seriously injured that his recovery is improbable. It appears that the crew came on board in the morning, and were ordered to commence work immediately. The ship had not yet weighed anchor, and they refused, upon the ground that their duties did not commence until the vessel was hauled out of the dock The second mate, Mr. Barker, attempted to compel them by force, when he was attacked by two or three

The Captain and other officers then took part in the affray, which had become general, during which the marlinspike, inflicting three terrible wounds. The injured man was conveyed to the drug store in Fulton street near Market street, where his wounds were dressed by Surgeon Ball and Dr. Peck. They found a wound on the right wrist six inches long, extending from between the fore and second finger to the wrist bone, cutting the tendon of one of the extension muscles of the forefinger.

There was a second wound on the left shoulder,

about three inches below the shoulder joint, extending about two inches in length, and penetrating nearly to the bone. The third wound is in the back, 24 inches from the spine. The eleventh rib was cut two, the marlinspike entering the cavity of the abdomen. The unfortunate man remained in the drug store until 3 o'clock before the physicians could cause sufficient reaction to warrant his removal. He was then conveyed to the City Hospital, where, up to dark, he remained in a critical condition, his death being momentarily looked for. Two others of the crew were injured, but not seriously. Kerwin was arrested by the Second District Police, and locked up to await the result of the injuries inflicted. The vessel had cleared for Bordeaux, France, and was about to set sail when the disturbance occurred.

THE TYRONE AND LOCKHAVEN RAILROAD CASE.

The Tyrone and Lockhaven Railroad Co. ast. Allen Schenck.

In this case it will be remembered the plaintiffs, by Dr. Underwood, their Preddent, procured the arrest of the defendant on a charge of defendant plan out of \$155.60 worth of books by giving them in exchange worthies notes of the Southern Bruke of Genris. The defendant was in default of \$195.600 worth of books by giving them in exchange worthies notes of the Southern Bruke of Genris. The defendant was in default of \$195.600 worth of books by giving them in exchange worthies notes of the Southern Bruke of Genris. The defendant was in default of \$195.600 kml locked up in Eldridge street jail. A few days ago the defendant meet to be defendant meet to be defendant meet to be defendant when the value of the border, The Judge denied the motionen the ground that the defendant had falled to prove the solvency of the bank at the time of making the negotiation. Leave was, however, riven to renew the meltion on prevent-ston of affidavits showing the solvency of the meltion on prevent-ston of affidavits showing the solvency of the meltion on prevent-ston of affidavits showing the solvency of the meltion on prevent-ston of affidavits showing the solvency of the meltion on prevent-ston of affidavits showing the solvency of the bank. This morning the defendant meet of the indicates the bank of the meltion of preventions of the defendant meet of the theory and the provisions of its classifier the correct of the bank, soording to the provisions of its classes which we have been all the fine of the bank and formed the capital stock of its beat and the provisions of its classes which the solvent prevention of specie payments took place by all the Correla Barks. During the foliowing session of the Georgia Legislate these superaints were legislate, and the banks relieved from any foreithme of their charter. The bank in question of the life banks and underwood to business up to

by linderwood, and not to any representations, faise or otherwise, by him. Schemck also alleges that Underwood has par \$15,600 with the bills in circulation.

The efficient of Mr. Bye set first that he was the publisher of a benk-mote detector, and was a broker. That he was well acquainted with the standing and character of the Southern Beak on and previous to the 17th of June last. That he had purchased the bills of the benk at a discount of one per cent. That the bark up to the time mentioned had always redeemed its arrentation. That after he had assortanted the transaction of the bark with Underwood he noticed that the circulation of the bank had greatly increased without any arrangement for the redemption of the bills having been made in this city. He then examined and found that plaintiff had a large amount of the circulation, and then he 19th) refused to purchase such hills, and dropped quoting them in his elector. Mr. Dye averred that he purchased the hills with the understanding and hills was because he ascertained that the principle had possession of a large amount of the hills and were tracklessly putting them in circulation, without prividing for their redemption. Dye further alleged that he had conversed with Underwood in relation to the Central Bank of Hollishurg, and that Underwood had misre presented the condition of that bank, so as to induce Mr. Bye to quote the same, and, there fore, when he learned that Underwood had obtated on large a quantity of the hills of the Scothern Bank of Georgia, he (Dye) lot all confidence in its issues, and refused to parchase or quote the same.

The silidavit of Mr. Norrie set forth that had a conversation.

A. Man, who de posed that he was a broker in this city and elsewhere. He knew the Southern Bank of Georgia, and had purchased its bills while in this city, and has had them always redeemed at one per cent discount. Mr. Man also averred that during the months of February, March, April, May, and June hat from different parts of the Union he sent remutances by mail of the currency of the bank, to its location at Baintbridge, and the same were always promptly redeemed by return mail.

Mr. Schenck also presented another affidavit, in which he reliterated his view of the transaction, and offered to give security for his performance of the original contract flavor of R. T. Deming and William H. De Forest, who deposed that the survey given on the order of arrest was one R. A. Robbins of No. 111 Broadway. That Robbins at the time he became such survey, was not a resident in this State, but that he resided at the Philadelphia Rotel in Jeney City, and that he was a resident of the State of New-Jersey.

State of New Jersey.

Before opening the case Judge Dean objected to the rights of the plaintiffs to appear in Court, it appearing that they were a foreign Corporation and that they had not given security for costs at the time they obtained the order of arrest. In parsuance of the statute Judge Edmonts contended that this was but a renewal of the original motion and the objection taken by the defeated ought to have been made on the original motion. He insisted
that nothing could now be been except as to the solvency of the
bank. The bond for security was filed this morning, and that
therefore they were regularly in Court.

Juage Dean contended that the plaintiffs were bound to show
that they had filed their bond before obtaining their order.

The Juage, however, decided to hear the additional affidavits
in the case.

in the case.

After the deferdant's affidavits had been read, ex-Judge Edymonds read affidavits for the plaintiff, in which Mr. Underwood set forth that in his conversation with Scheuck he told him that it was a swindle, to which Scheuck made no reply. Underwood denies that he ever circulated more than \$1,000 of such currency. The affidavit reiterated the statements of his former affidavits that he had been deceived by Dye. He learned from every source that the Southern Bank of Georgia was worthless.

Other affidavits showed that there were several names used in the published list of stockholders of the bank, whose owners never possessed any of the stock of the bank.

After the reading of the papers, the Judge postponed hearing the argument until Tuesday.

On the return of the order to show cause in this case, an affidavit made by Mr. Tumineon was read, showing that the had no interest in the paper beyond a mortrage on the chattels, &c., for moneys lent to Wilkes & Dayton.

James B. Devve made an affidavit showing that he was a partner of Will ex until the 27th of F. broary, 1858, when he sold his interest to Mr. Dayton, the plaintiff, with the approbation of Mr. Wilkes.

Wilkes.

At the conclusion of the reading, the Judge said be was of the option that Mr. Daytoe was the copartner of the defendant in the property, and that Mr. Tomiliuson stood in the relation of the mortgagee in possession. As there was no limit to the partnership, either party might windraw from the concern, but he was still liable for his share of the liabilities, and had an equal claim to a share of the assets. Under these oftenmatances a receiver must be apprinted to disp se of the good-will and title under which the paper had obtained such a popularity. The receiver must also collect the debts and pay the liabilities, after which the net proceeds would be the property of the copartners.

pany, of which the shorts have had great difficulty in making their deliveries. A considerable amount of deliveries was not completed at the proper time, and the stock was bought in at the Second Board under the rule. We have seldom seen so much excitement in the street asto-day, and some bad feeling was exhibited in one or two quarters, which came near involving personal collisions. The operations of the bull interest in this stock have tended recently to withdraw pearly all the cash stock from the street, the amount of which has always been limited, while the sales of the bears have been very free, so that in the aggreeen created. As de liveries were made from day to day, the floating stock became concentrated in the hands of one party, and the difficulty of making deliveries augmented, until they reached a climax to-day, accelerated by a short sale on Friday of 2,000 shares at 26, deliverable te-day. The demand for cash stock was very active, and as high as 2 P cent was paid for the use of stock until to-morrow. At thirty days, seller's option, the difference compared with regular was at the Second Board as great as 54 * cent. These are very unusual differences, and mark the great scarcity of stock for immediate use. At the close of business there was still some stock undelivered, and the quotation was 274 cash, and 254 regular. The bears had calculated largely upon the effect of the strike, but as this was so speedily arranged it had but little influence. The general market was quite strong, although the interest of the street was so largely absorbed in Southern Guaranteed. At the Second Board there was a good demand for the leading stocks, and higher prices were in most cases established. The upward impetus of the market, which was checked by the recent suspension of the bear houses, appears to be again felt, and the general anticipation of the street appears to be that higher points will be touched. Central was very strong, selling at 77. Galena was among the most buoyant stocks, going at the Second Board to 724. Rock Island was also strong at 681. The improving appearance of traffic on the Western roads has influence to increase business in the shares. In State stocks the market is very firm, with a good demand partly for Western banking. Railroad bonds are dull at the close. The Illinois Central gives in August about \$177,000 against \$203,000. The first week's traffic of September, on this road, promises to be much the largest of any this year. The business of one day alone (yesterday) included 116 cars discharged at Chicago, and about 30 or 40 cars at Cairo, beside through merchardise for St. Louis and Dunleith. The movement of wheat thus far is chiefly confined to Spring grain, and the stock of Winter wheat in Central and Northern Illinois is comparatively untouched.

Steamer Saxouia, Hamburg, American solver.

Steamer Saxouia, Bramburg, Mexican dollars.

Steamer Bremen, Bremen, California gold bars.

Steamer Bremen, Bremen, German silver.

The shipment on Wednesday, by the Etna, will probably be at least half a milhon, but we hear of nothing going by the Cunarder from Boston.

Telegraphic advices from New-Orleans state that the gold on the way from California to New-York is only \$1,200,000. If this be not an error, the amount will be a disappointment to those who look to these arrivals to fortify our bank vaults against the European drain. The Arizona, arrived at New-Orleans on the 26th of August, had \$47,611, and the Indianola \$97,952 in specie on board, both from Brazos Santisgo. The money market shows no change today. The inquiry at bank is not large, and is freely met, those institutions appearing willing to expand again to moderate extent. In the discount houses the

day. The inquiry at bank is not large, and is freely met, those institutions appearing willing to expand again to moderate extent. In the discount houses the demand for short paper is quite equal to the supply, and long paper goes with greater freedom, well indorsed, running up to February and March, having been passed at 7 % cent; leading short acceptances go at 6 % 6 if ? cent. We hear of a sale of \$200,000 of Post Office Certificates, with interest assigned, at \$200,000 in large amounts. The smaller certificates are \$7.288. There is a fair demand for Treasury Notes, the supply being almost entirely confined to the Sabtrasaury. Mr. Cisco disposed of \$100,000 to-day. In consequence of the large payments for duties, which render less necessary the proceeds of sales of Notes, Mr. Cobb has it under consideration to raduce the rate of interest on future issues.

At Boston money is in good demand at 8 29 P cent in the street. Demand loans were 627 P cent. The Illinois Journal states that on the 31st of

August there were protested at the Auditor's office a large number of the notes of the Bank of Grayville, Bank of America, Bank of Southern Illinois, Merchants' Bank of Carmi, and the Citizens' Bank. The sum total amounts to \$35,010. The holders of the paper were Messrs. Reed, Willard, and Adsit, of Chicago. The banks have ten days within which to liquidate, at the end of which time The Journal is of opinion that they will be ready with the gold.
